## PETE & LISA JANZEN

---

What a great privilege it is for us to serve as honorary chairs of WineFest No. 24—A Toast to Children’s Health! We have been patrons of WineFest for many years, and beginning last year, we participated on the event’s advisory committee. It is an honor to join the terrific staff and community volunteers to support the amazing, groundbreaking, and lifesaving work of University of Minnesota Masonic Children’s Hospital.

We attend many fundraising events, but none are better than WineFest! What could be more fulfilling than supporting Masonic Children’s Hospital and making a difference for children and their families! In addition to that great cause, there is the wine. Not just wine the beverage—wine the experience. WineFest educates you, entices you, and introduces you to new friends and renowned wines you may not have experienced before, all for a wonderful cause.

Through the ongoing generosity and hard work of many, many individuals, WineFest has raised more than \$16 million in support of children’s health at the University of Minnesota. Working together and sharing our skills, compassion, dedication, and love in support of our neighbors here in the Twin Cities, our state, our region, and our world is what our community is all about. We are committed to living these values in our daily family life. And for us, there is nothing better than gathering with friends and family around our table with good food, wine, and conversation. **That is WineFest! We look forward to working and celebrating with you!**

**Cheers!**

## KELLEN GIDDINGS

When Kellen Giddings came to University of Minnesota Masonic Children's Hospital, the 3-year-old already had been through a lot. He had extensive surgery to remove a tumor that caused blindness in one eye, meningitis, and a stroke that stole his speech and paralyzed his legs and right arm.

Kellen recovered most of his abilities during months of rehabilitation, but about 10 percent of the benign tumor remained. And there was a strong possibility that it would grow back.

Parents Nicole and Chris didn't have a lot of hope for Kellen when they started seeing Christopher Moertel, MD, a pediatric oncologist; pediatric neurosurgeon Daniel Guillaume, MD; and David Hamlar, MD, DDS, a pediatric otolaryngologist. They suggested more surgery, followed by immunotherapy.

**Masonic kids with cancer have access to more clinical trials and new treatments like immunotherapy than anywhere else in Minnesota.** The 2016 treatment eliminated Kellen's tumor and prevented it from returning. He will continue receiving quarterly MRI check-ups.

In addition to this exemplary care, the doctors' skill and clear communication restored the Giddings' hope, Chris says. Adds Nicole, "They listened and understood our concerns. They absolutely cater to kids at Masonic."

Today, Kellen is 6 and an avid golfer and sports fanatic. He constantly amazes his family with his resilience and fighting spirit.

## DARA BEAL

What started as a suspected stomach bug for Dara Beal turned out to be something much worse.

Within days of feeling sick, the 16-year-old was in a medically induced coma at University of Minnesota Masonic Children's Hospital, diagnosed with a life-threatening condition called Wilson's disease. The rare disorder prevents the body from removing extra copper, causing it to build up and damage the liver, brain, eyes, and other organs.

Dara's liver was failing, and she needed a transplant. "It was her only hope," her dad, Matt, says. A team of experts at Masonic sprang into action to save her life, performing a complicated but successful liver transplant and helping Dara recover over the next nine weeks.

**Pioneering research at the University of Minnesota has dramatically improved survival rates and post-transplant quality of life. One of the oldest transplant programs in the United States, the University and Masonic share a rich legacy of innovation in organ and cell transplants.**

"Dara had a very, very low chance of survival, but she survived," Matt says. "We're thankful for University of Minnesota Masonic Children's Hospital. I feel like we were in the right place at the right time with the right people."

## **There's wine—and then there's wine.**

It's those memorable vintages that taste like no other, garnering raves and the highest ratings from wine connoisseurs. WineFest No. 24 is shining the spotlight on outstanding vintners who create wines that are the best in their class and best in show. Their expertise, commitment to excellence, and constant striving to raise the bar result in elite wines. These winemakers exude passion for producing exceptional vintages, making it icing on the cake to welcome them to WineFest No. 24—A Toast to Children's Health.
